

MID-CITY HEARS MISS BOARDMAN

Commissioner Is Speaker
Before Citizens' Association.

Traffic Rules Up.

That the automobile driver needs more education along safety first lines than does the pedestrian was the consensus of opinion expressed last night by members of the Mid-City Citizens' Association at a meeting in the Thomson School, 12th and L streets. Commissioner Boardman was a speaker at this meeting.

The traffic situation was discussed from many angles, although no formal action was taken in this connection. The discussion was precipitated by the informal report of Dr. J. C. Buchanan, chairman of the committee on public health.

Following a report on the progress being made by civic authorities in devising means for curbing the increase in traffic accidents, members of the association who were inclined to their way on foot, denounced the laxity of regulations governing the issuance of drivers' permits and scored the driver "who lights a cigarette with one hand and tries to steer his car with the other."

Miss Mabel T. Boardman, District Commissioner, reiterated her previously announced stand on the question of suffrage for Washington, explaining that she was in favor of allowing District citizens to vote for President and Vice President, she did not think that they should elect representatives to Congress. Miss Boardman stated that if the District Commissioners were accorded seats in Congress, they could gain more for the District than elected representatives.

An impromptu reception was staged for the purpose of having members of the association shake hands with the new Commissioner.

Upon recommendation of the committee on constitution and by-laws, it was voted to admit women to membership in the organization. In order properly to inaugurate this event, the association will hold an elaborate entertainment on November 23 at 8 o'clock, in the Thomson School. A musical program will be followed by dancing.

CABRERA APPEALS TO U. S.
President Wilson has been appealed to by Etrudra Cabrera, deposed President of Guatemala, to obtain his release from prison, where he has been confined since the revolution which resulted in his overthrow. The request was contained in a communication forwarded through the State Department.

The former Guatemalan president bases his appeal on the ground that for the more than twenty years of his presidency that republic he was consistently the friend of the United States, and that his imprisonment is affecting his health.

The Great Blessing.

I had a weary siege of sickness that called for pink and purple pills; my humble roll lost all its thickness when I had paid the doctors' bills. And pharmacists and well trained nurses were chasing to me up the road, and undertakers with their hearses were hanging round my abode. Now I am feeling vastly better, the gout and mumps have left my frame, likewise lumbago, croup and tetter, though rheumatism still plays its game. No longer do I wear a plaster, there is no poultice on my form, and I'm not scared by bleak disaster, or by the ills that round me swarm. If one has health he is a craven to talk of grief and trouble sore, and croak, like Edgar Allan's raven, such balderdash as "Nevermore." Health is the only thing that matters, beside it other boons are vain, and men are surely mad as hatters who kick when they are free from pain. Recovered from my indignation, and convalescent from the itch, I face my tasks without a question, and life seems full and sweet and rich. Yes, ugly problems crowd around me, and threats and things invade my den, but they can't daunt me or confound me, for I am feeling well again. **WALT MASON.**

COL. F. H. WOLVEN RETIRED.
Col. Frank H. Wolven, Dental Corps, has been placed on the retired list of the Army on account of physical disability incurred to the service. He is from New York, and entered the Army as a dental surgeon in April, 1911. He has recently been under treatment at Walter Reed General Hospital.

The Brazilian government will transform an agricultural experiment station into a pomological station for a practice school for students and a model for farmers.
